Safety Instructions for Stand Up Paddle board Inflators

Please read these instructions carefully before attempting to assemble, install, operate or maintain the product. Protect yourself and others by observing all safety information. Failure to do so could result in personal injury and/or damage to property. Retain these instructions for future reference.

Introduction

Read and understand all safety warnings and instructions before operating this product. To help recognise this information, observe the following symbols.

DANGER	Danger indicates an imminently hazardous situation which if not avoided WILL result in death or serious injury.
WARNING	Warning indicates a potentially hazardous situation which if not avoided, COULD result in death or serious injury.
CAUTION	Caution indicates a potentially minor or moderate injury.
NOTICE	Notice indicates important information, that if not followed, may cause damage to equipment.

Unpacking

After unpacking the product, inspect carefully for any damage that may have occurred during transit.

WARNING	Do not operate the product if it is damaged.

Safety Information

Read and understand all safety warnings and instructions before operating the product.

WARNING	Failure to follow safety warnings may result in personnel injury or death and/or damage to property.

- Do not expose the product to flammable gases, vapours or fumes or store flammable gases near the product.
- Do not use flammable or toxic solvents to clean the product.
- Do not operate the product in a potentially explosive environment. *Consideration must be given to the requirements relative to Hazardous Area Standards for your region or country.*
- Do not remove or alter safety warning labels, tags, etc.
- All works concerning installation, adjustment and maintenance must be made by qualified persons in accordance with standards for safety for your region or country.
- Do not exceed the maximum air supply.
- Follow all instructions for maintenance.
- Repairs must be performed by authorised repair personnel, otherwise the warranty will be void.
- The use of non-genuine replacement parts may result in reduced performance.

Instructions for Safe Operation

PCL stand up paddle board inflators are exclusively approved for the dispensing of air into stand up paddle boards. Use which doesn't follow this purpose, as well as modifications to the product will be deemed to be improper use. The manufacturer is not liable for damages caused by improper use.

WARNING

- This equipment must only be used for the inflation of stand-up paddleboards (SUP). Do not use the equipment to inflate any other items.
- Prior to inflation you must inspect the SUP and this equipment for any signs of damage. A damaged SUP should not be inflated and do not use this equipment if it appears damaged. If in doubt do not inflate.
- Do not change, alter, or use a different connector to inflate your SUP.
- This equipment uses compressed air which is dangerous and can cause harm if misused. Do not direct the air outlet towards any person or animal and especially to their eyes, face or skin.
- Do not use compressed air to clean debris from yourself, the SUP or other items.
- You must follow the manufacturer's instructions provided with the SUP with regards to safe use and inflation pressure so as not to hurt or injure yourself or others or cause the paddleboard to fail in use.
- You must ensure that the SUP is placed in a convenient place, so not to cause a trip hazard during inflation.
- The use of this equipment is entirely at your own risk and PCL shall not be held liable for any damage or injuries caused by using this equipment.
- Do not use this equipment in adverse weather conditions that may harm you or others.
- Children should only use the equipment under adult supervision.
- Do not operate this product if tired or under the influence of medication, drugs or alcohol.
- By using this equipment, you accept that you have read and understood these terms of use.

CAUTION

- Proper use of the product also implies the observance of the manufacturers instructions with regard to installation, operation and maintenance.
